PROJECTS

Hostelbites | Flutter,Firestore

- Flutter-based mess management app with secure login for students and wardens.
 - Features include profile management, attendance tracking, meal viewing, milk subscription, feedback submission, and notification alerts for students.
 - Wardens can manage student data, update menus, monitor attendance, view milk preferences, post notices, and review feedback.
 - The project showcases proficiency in Flutter, authentication, database management, and UI/UX design, enhancing efficiency and communication within the mess management system.
-
